MASTERMIND ULTRA LOW RG ASYMMETRIC CORE

The Mastermind Ultra Low RG Asymmetric core features a single density squared-off elliptical inner core. The core is dynamically designed to extend the rotational energy, boosting angular velocity to transfer energy to the pins for increased pin action and higher scores.

FORTERA™ EXILE — NEW

The all new Fortify reactive coverstock is Brunswick's hottest creation based off our performance enhancing additive chemistry technology. Fortify reactive combines a new base coverstock with an enhanced additive package that will provide the easiest length with the quickest lateral traction of any coverstock to date.
