Information Sheet

Battle Zone - Cannon ™

Part Number

60-103221

Specifications

Coverstock: PowerKoil 17XD (Extra Distance)™
Factory Polished
Color: Two Color Purple/Silver
Hook Potential: 17 - 9 (dull/shiny)
Typical Length: 5.5
Typical Backend: 10
RG Max: 2.552
RG Min: 2.498
Average RG: 3.6
RG Differential: 0.054

Reaction Characteristics

Blow 'em off the lanes with the pure firepower of Battle Zone. The Battle Zone Cannon is a new weapon in the Battle Zone arsenal that allow you to more effectively attack medium to drier lane conditions. The Battle Zone Cannon uses a low RG core combined with a reactive coverstock that has been specifically formulated to be cleaner through the front part of the lane. This core/cover combination allows the Cannon to be a heavy rolling ball that still gets down the lane, preserving its power for a strong backend attack on the pins. Battle Zone Cannon packs a new spin on reactive coverstocks with a core design that will roll as you order. Plus a low price that is right on target to fire.

Drilling Information

All weights of the Battle Zone Cannon ball can be drilled using techniques developed for two-piece balls. See Brunswick's "Seven Popular Layouts" for detailed drilling instructions.

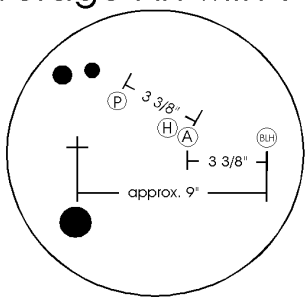

Brunswick®

SEVEN POPULAR LAYOUTS

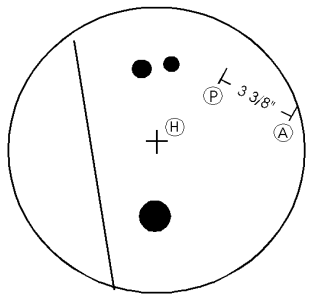

MAXIMUM TRACK FLARE HIGH REACTIVITY

MINIMUM TRACK FLARE LOW REACTIVITY

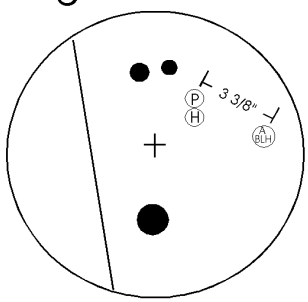

1-Leverage Pin with 9" hole

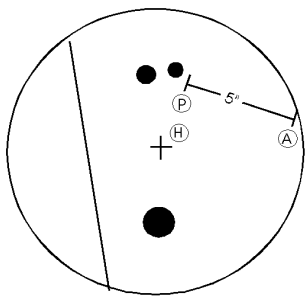

2-Leverage Pin-heavy spot toward grip center

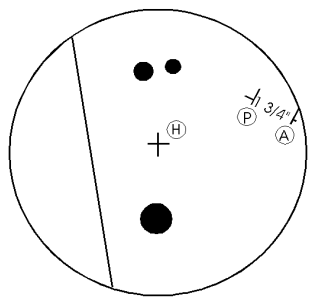

3-Leverage Pin with Axis hole

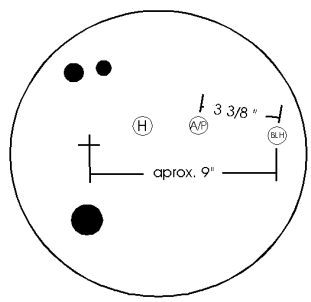

4-Positive label shift

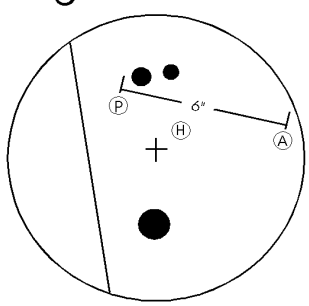

5-Pin between Axis and Leverage

6-Axis Pin with 9" hole

7-Negative label shift

P = Pin H = Heavy Spot A = Axis BLH = Balance hole
