KARMA™ PURPLE/PINK PEARL

AFP Affordable performance

ACTIVATOR PLUS COVERSTOCK

Activator Plus is a more aggressive version of the original Activator coverstock formulation and features enhanced durability and performance longevity and is one of the most recognized coverstock names in the bowling world. The pearlized version of **Activator Plus** coverstock used on the **Karma Purple/Pink Pearl** is factory-finished with High Gloss Polish to create extra length on lighter oil conditions.

CORE

The **Karma Purple/Pink Pearl** incorporates a familiar light bulb shape Medium RG Performance core that provides easy length through the heads, mid-lane stability while maintaining axis rotation for a strong continuous backend motion.

BALL MOTION

With its High Gloss box finish, the **Karma Purple/Pink Pearl** will provide excellent length with a medium to quick response to friction at the breakpoint. The **Karma Purple/Pink Pearl** is a great ball for rev-dominant and slower ball speed players on light oil conditions.

REACTION SETUP

The **Karma Purple/Pink Pearl** can be drilled using the standard drilling techniques developed for symmetric bowling balls.

LIGHTWEIGHT ENGINEERING

At Brunswick, the unique core shape of each individual ball is used for weights from 12 to 16 pounds. This approach to lightweight ball engineering provides bowlers with consistent ball reaction characteristics across this weight range.
