Length	140

	15 lbs	14 lbs
RG	2.483	2.499
DIFF	0.055	0.055
ASY	0.020	0.020

The Kingpin Gold Special Edition uses ECA-X Pearl (Enhanced Composite Adhesion), a pearlized version of the popular ECA-X cover to create length and a sharp backend in the Kingpin line. The Kingpin line has been known for its ability to conquer the oiliest conditions, the Kingpin Gold Special Edition complements the line by creating less friction in the front part of the lane, and produces excellent recovery on medium conditions. When the Kingpin or Kingpin Max start hooking too much, the Kingpin Gold Special Edition is the perfect go-to ball. The Kingpin Asymmetric core features DynamiCore - our more durable outer core material that yields less compression upon impact increasing hitting power and creating an undeniable difference in sound and pin carry.
