KINGPIN™

Brunswick x WinAm

PART NUMBER 60-105968

COLOR Black / Light Blue / Purple Solid

CORE Kingpin Ultra Low RG

COVERSTOCK ECA (Enhanced Composite Adhesion)

FINISH 500 / 1,500 Siaair Micro Pad

WEIGHTS 12-16 lbs.

HOOK POTENTIAL 300

LENGTH 100

BREAKPOINT SHAPE 115

The Kingpin features a new innovation in outer core technology called **DynamiCore**. This leap in bowling ball technology is a more durable outer material that yields less compression upon impact increasing hitting power and creating an undeniable difference in sound and pin carry. **DynamiCore** is blue and will be noticeable when drilling into the Kingpin.

Brunswick pushes the hook boundaries to the extreme with the all new **Kingpin**! We combined our new ECA (Enhanced Composite Adhesion) coverstock with our new Kingpin asymmetrical core to achieve the largest hook potential in Brunswick's history. Able to conquer the heaviest oil patterns, the **Kingpin** will produce good length through the front, the strongest mid lane adhesion allowing for exceptional backend motion on oily to heavy oil lane conditions.
