CAREFUL WHERE YOU POINT THAT THING.

With extra length, extra continuation, and extra workability, the Loaded Revolver™ is extra easy on bowlers in a variety of lane conditions. It clears the fronts with ease and provides a continuous reaction on the backend. Just aim and fire. Visit your local pro shop today to handle one yourself, or go to Brunswick.com.vn

Brunswick® x WINAM

LOADED REVOLVER™

HP High performance

PROPEL X™ COVERSTOCK

The **Loaded Revolver** maximizes its performance by using **Propel X** reactive coverstock technology. **Propel X** features an enhanced pore structure to provide Xtra consistency from shot to shot and Xtra workability on a wider variety of lane conditions

JACK™ CORE

The **Jack** core was designed as a low RG symmetric core with a high differential. The low RG engages in the mid-lane assisting in ball motion, and the high differential increases track flare potential giving the ball more opportunity to grip the backend while using standard layouts.

BALL MOTION

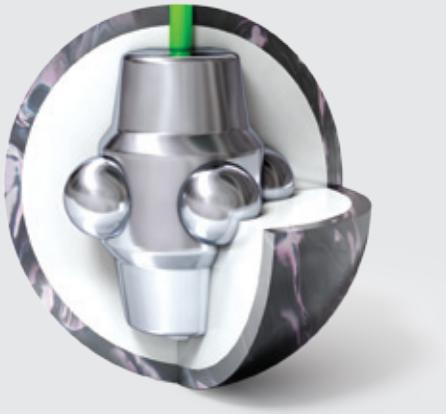

With its Rough Buff finish, the **Loaded Revolver** unites the proven **Propel X** coverstock and the **Jack** low RG core to produce a ball motion that clears the front with ease and is aggressive in the mid-lane with a quick, continuous response to friction on the backend.

REACTION SETUP

The **Loaded Revolver** can be drilled using the standard drilling techniques developed for symmetric bowling balls.

LIGHTWEIGHT ENGINEERING

The unique core shape of each Brunswick ball is used for weights from 14 to 16 pounds. This approach to lightweight ball engineering provides bowlers with consistent ball reaction characteristics across this weight range. The same drilling instructions can be used for 12- and 13-pound balls. This is because Brunswick uses a generic core shape with an RG differential that is close enough to the 14-16 pound shape.

SPECIFICATIONS

Hook Potential	Low (10)	150	High (185)
Length	Early (25)	110	Long (235)
Breakpoint Shape	Smooth Arc (10)	85	Angular (100)
RG Differential	Low (0)	.054	High (.060)
RG Average	Center Heavy (1)	3.8	Cover Heavy (10)

- JACK Core
- Propel X Coverstock
- 2-Color, Black/White Pearl
- Hardness: 76-78
- 500; 1,500 Siaair Micro Pad; Rough Buff Finish
- Chart Position: P-6
- Part No. 60-105342-93X

	16 LB	15 LB	14 LB	13 LB	12 LB
