

ULTRAMARINE IS THE NEW WHITE.

The white Quantum Bias Solid was so successful, we decided to create an even longer and stronger version. ***Introducing the ultramarine colored Quantum Bias Pearl.*** This ball combines our ECA-XR Pearl coverstock with the proven Quantum Mushroom High RG Asymmetric core. A combination that provides strong hooking motion with excellent pin carry on medium lane conditions.

We may be a tad Biased, but we loved the Quantum Bias Solid so we made a longer, stronger version. Our ECA-XR Pearl coverstock combined with the Quantum Mushroom High RG Asymmetric core gives strong hooking motion with excellent pin carry on medium lane conditions. The Quantum series has been designed with 3.5 times more coverstock for improved durability, performance, longevity, and incredible hitting power. The enhanced Coefficient of Restitution results in the pins flying faster for greater pin action and more strikes. Clean your ball with Brunswick's Big B Bowling Ball Cleaner after every use to reduce oil absorption.
